SUMMARY

Full-stack developer who ships real, production software end-to-end. Built and deployed a live booking and payments platform solo for a client with a 1.2M-follower audience. Strong in TypeScript / React / Next.js and .NET, with a networking and cloud foundation. Comfortable owning features from database to deployment.

SKILLS

Languages	TypeScript, JavaScript, Python, C#, Java, SQL, Swift
Frontend	React, Next.js, Tailwind CSS, shadcn/ui
Backend	.NET (C#), FastAPI, Node/Express, Spring Boot, REST APIs
Databases	PostgreSQL (Neon), Prisma, MongoDB, Oracle, SQL Server
Cloud & DevOps	Vercel, Docker, Git/GitHub, CI/CD, Linux/UNIX
Other	Stripe payments, Machine Learning, iOS (Swift)

EXPERIENCE

Freelance Full-Stack Developer — TheTripman (Contract, revenue-share) Remote · Aug 2025 – Present

- Designed, built, and deployed a full booking and payments platform **solo** for an influencer-led transportation business (client audience ~1.2M) using Next.js 15, TypeScript, Prisma, and Neon PostgreSQL.
- Integrated **Stripe** for end-to-end payments, an authenticated **admin dashboard** for booking management, and automated email confirmations (Resend) with calendar (.ics / Google Calendar) sync.
- Shipped to production on Vercel with GA4 analytics, accessibility tests (jest-axe), and a CI pipeline (Husky); the platform processes live customer bookings — 11+ generating \$1,000+ in revenue in a recent month.

PROJECTS

Le Pathétique — Multimodal AI Web App BearHacks 2026 · Solo

Next.js · TypeScript · Google Vision · Gemini · ElevenLabs

- Built a solo hackathon app that critiques a photo of your cooking: image → Vision labeling → Gemini critique → ElevenLabs voice, in one weekend.
- Engineered an offline mock mode so the live demo survives venue Wi-Fi or API failures.

Feather — AI Market Insights Platform Capstone · Team

React · TypeScript · FastAPI · Python · Docker · ML

- Built a next-day stock prediction app with ML baselines (SVR, Random Forest); owned the ML evaluation approach and the API contract between model and UI.
- Capstone prototype graded 94/100.

Puffy — Local Business Website Client

Next.js · TypeScript · Tailwind CSS

- Designed and shipped a marketing site for a local patisserie / dessert shop; QR-code menu and Google Business integration in progress.

EDUCATION

Sheridan College — Oakville, ON

Advanced Diploma, Computer Systems Technology – Software Development & Network Engineering · Expected Aug 2026

Selected coursework: AI & Machine Learning, Cloud Systems, iOS Development, .NET / C#, Database Design, Linux/UNIX.
